

**ACTIVARMR**<sup>®</sup>  
PERSONAL PROTECTIVE GEAR

## FLAME RESISTANT & IMPACT PROTECTION GLOVES

### COMFORT AND DEXTERITY FOR THE MOST RIGOROUS JOBS

From the rig floor to production services, the ActivArm<sup>®</sup> 97-200 is designed to stand up to the challenges of the oilfield. It meets the NFPA 2112 Flame Resistant standard, while offering industry-leading comfort and dexterity, along with palm and back impact protection — for ultimate performance in the field.

#### ADVANTAGES

- 12-hour stress-free comfort
- Tactility/dexterity, complete intricate tasks more efficiently
- Over 3 times more durable than competitive gloves
- Superior grip with reinforced padding and palm patches
- Easy don/doff safety cuff

#### ATTRIBUTES

- Comprehensive impact protection
- Hi Viz with contrasting palm
- Palm padding for hard impact
- Meets NFPA 2112 work wear FR requirements

ActivArm<sup>®</sup> Personal Protective Gear from Ansell is designed and engineered to offer the optimum balance of protection and performance for the real world extremes of the oil and gas, mining, construction, military and emergency service industries. For over 100 years, Ansell has been recognized for continually innovating and leading the hand protection and protective clothing industry.

**WARNING:** The 97-200 is not "fire-proof" and will not completely prevent or eliminate the potential for burns or associated injuries. No glove completely prevents or eliminates the potential for cuts or punctures. The 97-200 is not intended or tested to provide protection against powered blades, serrated or other sharp or rotating equipment, nor will it completely prevent or eliminate the potential for abrasion-related injuries. Users are encouraged to always use caution and care when handling sharp materials or in potentially dangerous environments.

Product users should conduct all appropriate testing or other evaluations to determine the suitability of Ansell products for a particular purpose or use within a particular environment.
